## Independent Auditor's Report

To the Members of Zuari Investments Limited

## Report on the Financial Statements

1. We have audited the accompanying financial statements of Zuari Investments Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement, the Statement of Changes in Equity for the year then ended and a summary of the significant accounting policies and other explanatory information.

## Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ('Ind AS') specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

3. Our responsibility is to express an opinion on these financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether these financial statements are free from material misstatement.

# Walker Chandiook & Co LLP

6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on these financial statements.

## Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including Ind AS specified under Section 133 of the Act, of the state of affairs (financial position) of the Company as at 31 March 2018, and its loss (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

## Other Matter

9. The financial statements of the Company for the year ended 31 March 2017, were audited by predecessor auditor who expressed an unmodified opinion vide their audit report dated 12 May 2017.

## Report on Other Legal and Regulatory Requirements

10. As required by the Companies (Auditor's Report) Order, 2016 ('the Order') issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.
11. Further to our comments in Annexure I, as required by Section 143(3) of the Act, we report that:
  - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - c) the financial statements dealt with by this report are in agreement with the books of account;
  - d) in our opinion, the aforesaid financial statements comply with Ind AS specified under Section 133 of the Act, read with relevant rule thereunder;
  - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2018 from being appointed as a director in terms of Section 164(2) of the Act;
  - f) we have also audited the internal financial controls over financial reporting (IFCoFR) of the Company as on 31 March 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date and our report dated 16 May 2018 as per Annexure II expressed an unmodified opinion;

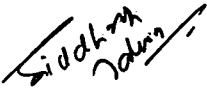

# Walker Chandiook & Co LLP

- g) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- i. the Company does not have any pending litigation which would impact its financial position;
  - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company; and
  - iv. the disclosure requirements relating to holdings as well as dealings in specified bank notes were applicable for the period from 8 November 2016 to 30 December 2016 which are not relevant to these financial statements. Hence, reporting under this clause is not applicable.

## Annexure I to Independent Auditor's Report of even date to the members of Zuari Investments Limited on the financial statements for the year ended 31 March 2018

Based on the audit procedures performed for the purpose of reporting a true and fair view on the financial statements of the Company and taking into consideration the information and explanations given to us and the books of account and other records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i) The Company does not have any property, plant and equipment. Accordingly, the provisions of clause 3(i) of the Order are not applicable.
- (ii) The Company does not have any inventory covered by Ind-AS 2. Accordingly, the provisions of clause 3(ii) of the Order are not applicable to the Company.
- (iii) The Company has not granted any loan, secured or unsecured to companies, firms Limited Liability Partnerships (LLPs) or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order are not applicable.
- (iv) In our opinion, the Company has not entered into any transaction covered under Sections 185 and 186 of the Act. Accordingly, the provisions of clause 3(iv) of the Order are not applicable.
- (v) In our opinion, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 and rule framed thereunder. Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) The Central Government has not specified maintenance of cost records under sub-section (1) of Section 148 of the Act, in respect of Company's services. Accordingly, the provisions of clause 3(vi) of the Order are not applicable.
- (vii)(a) Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited to the appropriate authorities, though there has been a slight delay in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
- (b) There are no dues in respect of income-tax, sales-tax, service tax, duty of customs, duty of excise and value added tax that have not been deposited with the appropriate authorities on account of any dispute.
- (viii) The Company has no loans or borrowings payable to a financial institution or a bank or government and no dues payable to debenture-holders during the year. Accordingly, the provisions of clause 3(viii) of the Order are not applicable.
- (ix) In our opinion, the Company has applied moneys raised by way of term loans for the purposes for which these were raised. The Company did not raise moneys by way of initial public offer/ further public offer (including debt instruments) during the year.
- (x) No fraud by the Company or on the Company by its officers or employees has been noticed or reported during the period covered by our audit.

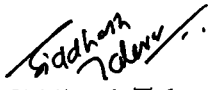

# Walker Chandiok & Co LLP

## Annexure I to Independent Auditor's Report of even date to the members of Zuari Investments Limited on the financial statements for the year ended 31 March 2018

- (xi) The Company has not paid or provided for any managerial remuneration. Accordingly, the provisions of Clause 3(xi) of the Order are not applicable.
- (xii) In our opinion, the Company is not a Nidhi Company. Accordingly, provisions of clause 3(xii) of the Order are not applicable.
- (xiii) In our opinion, all transactions with the related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the requisite details have been disclosed in the financial statements etc, as required by the applicable Ind AS.
- (xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures.
- (xv) In our opinion, the Company has not entered into any non-cash transactions with the directors or persons connected with them covered under Section 192 of the Act.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

## **Annexure II to Independent Auditor's Report of even date to the members of Zuari Investments Limited on the financial statements for the year ended 31 March 2018**

### **Independent Auditor's Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act').**

1. In conjunction with our audit of the financial statements of the Company as at and for the year ended 31 March 2018, we have audited the internal financial controls over financial reporting ('IFCoFR') of the Company as at that date.

#### **Management's Responsibility for Internal Financial Controls**

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditor's Responsibility**

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Guidance Note and Standards on Auditing issued by the ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR includes obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

#### **Meaning of Internal Financial Controls over Financial Reporting**

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

# Walker Chandiook & Co LLP

Annexure II to Independent Auditor's Report of even date to the members of Zuari Investments Limited on the financial statements for the year ended 31 March 2018

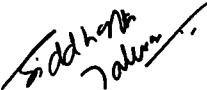

## Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that the IFCoFR may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such controls were operating effectively as at 31 March 2018, based on the internal control over Financial Reporting criteria established by the Company considering the essential components of internal control stated in Guidance Note issued by the ICAI.

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

#### 1. Corporate information

Zuari Investments Limited (the "Company") is a public Company domiciled in India an incorporated under the provisions of the Companies Act, 1956. During the year ended 31 March 2018, the management of the Company discontinued the Company's service oriented business comprising of stock broking, depository participant, real estate brokers, distribution of mutual fund products, mortgage brokers and registrars/share transfer agents, along with entire investments held by it in Zuari Insurance Brokers Limited and Zuari Commodity Trading Limited, its wholly owned subsidiaries engaged in the business of insurance broking and commodity trading respectively after getting approval from National Company Law Tribunal ('NCLT'), Mumbai Bench, Mumbai dated 9 November 2017 in pursuance of scheme of arrangement entered between the Company and Zuari Finserv Private Limited which was being effected from 5 January 2018, after making necessary filings with registrar of companies (refer note 31).

#### 2. Application of Indian Accounting Standards

All the Ind AS issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are authorized (refer note 41) have been considered while preparing these financial statements.

##### Standards/Amendments to standards issued but not effective

In March 2018, the Ministry of Corporate Affairs (MCA) issued the Companies (Indian Accounting Standards) Amendment Rules, 2018 (Amendment Rules) via notification dated 28 March 2018, notifying amendments to Ind AS 22, "Income Taxes" along with amendments to various other Ind AS (not applicable to the Company). These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) along with International Financial Reporting Standards (IFRS) Interpretations Committee to IRFS as a part of annual improvement process. Also, along with these amendments, Amendment Rules inserted a new revenue recognition standard Ind AS 115, Revenue from Contracts with Customers, (Ind AS 115). These amendments are applicable from 01 April 2018 onwards.

**Amendments to Ind AS 22:** The amendment to Ind AS 22 explains that determining temporary differences and estimating probable future taxable profit against which deductible temporary differences are assessed for utilisation are two separate steps and the carrying amount of an asset is relevant only to determining temporary differences. The carrying amount of an asset does not limit the estimation of probable future taxable profit. In its estimate of probable future taxable profit, an entity includes the probable inflow of taxable economic benefits that results from recovering an asset. This probable inflow of taxable economic benefits may exceed the carrying amount of the asset.

The amendments consider that: (i) Tax law determines which deductions are offset against taxable income in determining taxable profits. (ii) No deferred tax asset is recognised if the reversal of the deductible temporary difference will not lead to tax deductions.

The Company considered its effects while recognizing deferred tax assets on deductible temporary differences including unused tax credits.

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

**Ind AS 115:** Ind AS 115 establishes a new control-based revenue recognition model for recognising and measuring revenue, and provides new and more detailed guidance on specific topics like multiple element arrangement, variable consideration, rights of return, licensing agreements, contract costs, etc.

The application of the same will withdraw currently applicable revenue standards. The Company is currently assessing the potential impacts of the newly notified standard. The same is applicable from reporting periods beginning on or after 01 April 2018.

### 3. Significant accounting policies

#### a) Basis of preparation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended time to time) notified under section 133 of the Companies Act, 2013 (the "Act").

The financial statements of the Company have been prepared on a historical cost basis., except for certain financial assets measured at fair value.

#### b) Amended standard adopted by the Company

The amendments to Ind AS 7 require disclosure of changes in liabilities arising from financing activities, see note 19.

#### c) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current and non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

#### d) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being received.

Revenue is measured at the fair value of the consideration received or receivable. Revenue excludes sales tax/value added tax/service tax/goods and service tax.

The specific recognition criteria described below must also be met before revenue is recognized:

##### Rendering of services:

Revenue from rendering of services is recognised on the basis of stage of completion method. Under this method, revenue is recognised in the accounting periods in which the services are rendered.

##### Interest income:

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR). Refer note (i) for further details.

##### Dividends:

Revenue is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

#### e) Taxes

Income tax comprises of current and deferred tax. It is recognised in Statement of Profit and Loss except to the extent that is related to an item recognised directly in equity or other comprehensive income.

##### Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the country where the Company operates and generates taxable income. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

##### Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred income tax liabilities are recognised for all taxable temporary differences. Deferred income tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised. Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

#### f) Borrowing costs

General and specific borrowing costs directly attributed to the acquisition, construction or production of a qualifying asset are capitalised upto the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

All other borrowing costs are expensed in the period in which they occur or accrue. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

#### g) Property, plant and equipment

All the items of the property, plant and equipment are stated as per cost model i.e. cost of acquisition less accumulated depreciation and impairment. All significant costs incidental to the acquisition of assets are capitalized.

#### Recognition:

The costs including subsequent costs of an item of property, plant and equipment is recognised as an asset if, and only if:

- it is probable that future economic benefits associated with the item will flow to the entity; and
- the cost of the item can be measured reliably.

All other expenses including day to day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss in the year when such expenses are incurred.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

#### Depreciation, estimated useful life and residual life

Depreciation is calculated using the straight line method to allocate their cost, net of their residual values, over their estimated useful lives: -

| Particulars             | Life (years) |
|-------------------------|--------------|
| Furniture and fixtures  | 10           |
| Computers and softwares | 03           |
| Office equipment        | 05           |
| Servers                 | 06           |

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

#### h) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization impairment losses, if any.

##### Recognition:

The costs of intangible asset is recognised as an asset if, and only if:

- it is probable that future economic benefits associated with the item will flow to the entity; and
- the cost of the item can be measured reliably.

Intangibles representing computer software are amortized using the straight line method over their estimated useful lives of five years.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment, whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each financial year end and adjusted prospectively, if appropriate treating them as changes in accounting estimates. The maintenance expenses on intangible assets with finite lives is recognised in the statement of profit and loss, unless such expenditure forms part of carrying value of an asset and satisfies recognition criteria.

Gains/(losses) arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Assets carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

#### i) Impairment of tangible and intangible assets

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets of a "Cash Generating Unit" (CGU) to determine whether there is any indication that those assets have suffered an impairment loss. Individual assets are grouped for impairment assessment purposes at the lowest level at which there are identifiable cash flows that are largely independent of the cash flows of other groups of assets. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount. The increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement of profit and loss.

#### j) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Assets acquired under leases other than finance leases are classified as operating leases. The total lease rentals (including scheduled rental increases) in respect of an asset taken on operating lease are charged to the statement of profit and loss on a straight line basis over the lease term unless another systematic basis is more representative of the time pattern of the benefit. Initial direct costs incurred specifically for an operating lease are deferred and charged to the statement of profit and loss over the lease term.

#### k) Post-employment and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no statutory nor contractual obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

**Gratuity liability** being a defined benefit obligation is provided for on the basis of actuarial valuation on projected unit credit method made at the end of each financial year. The gratuity plan of the Company has been funded by policy taken from Life Insurance Corporation of India. Actuarial gains and losses for defined benefit plan are recognized in full in the year in which they occur in the statement of profit and loss.

Measurements, comprising of actuarial gains and losses are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Actuarial gains/losses are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and nonroutine settlements; and
- Net interest expense or income

**Accumulated leave**, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. The Company presents the entire leave as current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Actuarial gains and losses are recognized in full in the period in which they occur in the statement of profit and loss.

#### 1) Financial instruments

Financial assets and financial liabilities are recognized when Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value using best estimates. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly

**Zuari Investments Limited**

**Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018**

attributable to the acquisition of financial assets at fair value through profit or loss are recognised immediately in the statement the profit and loss.

**Financial assets:**

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

**Amortized cost**

A financial asset shall be measured at amortised cost using effective interest rates if both of the following conditions are met:

- financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

**Financial assets at fair value through profit and loss (FVTPL)**

Financial assets at FVTPL include financial assets that either do not meet the criteria for amortised cost classification or are equity instruments held for trading or that meet certain conditions and are designated at FVTPL upon initial recognition. All derivative financial instruments also fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements may apply. Assets in this category are measured at fair value with gains or losses recognized in the statement of profit and loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

**Financial assets at fair value through other comprehensive income (FVTOCI)**

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to the statement of profit and loss on disposal of the investments. The Company has irrevocably adopted to value its equity investments through FVTOCI.

Dividends on these investments in equity instruments are recognised in the statement of profit and loss when the Company's right to receive the dividends is established, it is probable that the economic benefits

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in the Statement of Profit and Loss are included in the 'Other income' line item.

#### **Financial assets at cost**

The Company holds investments in its subsidiaries, which are measured at cost while preparing its separate financial statements.

#### **Impairment of financial asset**

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortized cost and financial asset designated as at FVTOCI.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses using the simplified approach permitted under Ind AS 109.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

#### **Financial liabilities:**

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

#### **Loans and borrowings**

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in statement of profit and loss when liabilities are derecognised. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance cost in the statement of profit and loss.

#### **Derecognition of financial instruments**

The Company derecognises a financial asset when the contractual rights to the cash flows from th financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

#### Fair value of financial instruments

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices. All methods of assessing fair value result in general approximation of value, and such value may vary from actual realisation on future date.

#### m) Earnings per share

Basic Earnings per Share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effect of all dilutive potential equity shares.

#### n) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

#### o) Provisions, contingent liabilities and contingent assets

##### Provisions

Provisions are recognized when present obligations as a result of a past event will probably lead to an outflow of economic resources from the Company and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive commitment that has resulted from past events. Provisions are not recognized for future operating losses. Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material. Any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset. However, this asset may not exceed the amount of the related provision. All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

##### Contingent liabilities

In those cases, where the possible outflow of economic resources as a result of present obligations is considered not probable or where the amount of the obligation cannot be determined reliably, no liability is recognized.

## Zuari Investments Limited

### Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018

#### Contingent assets

Possible inflows of economic benefits to the Company that do not yet meet the recognition criteria of an asset are considered contingent assets.

#### p) Discontinued operations

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

#### q) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs. Unallocated items include general corporate income and expense items which are not allocated to any business segment. The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole

#### r) Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures.

#### Significant management judgements

The following are significant management judgements in applying the accounting policies of the Company that have the most significant effect on the financial statements.

**Recognition of deferred tax assets** – The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilized.

**Classification of leases** – The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset. The Group has also factored in overall time period of rent agreements to arrive at lease period to recognise rental income on straight line basis.

**Contingent liabilities** – At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Group assesses the requirement of provisions against the outstanding warranties and guarantees. However, the actual future outcome may be different from this judgement.

**Zuari Investments Limited**

**Summary of significant accounting policies and other explanatory information's for the year ended 31 March 2018**

**Significant estimates**

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be different.

**Impairment of financial assets** – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding receivables and advances.

**Fair value measurements** – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

## 30 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company adjusts dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company's policy is to keep the gearing ratio below 1:1. The Company includes within net debt, interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

| Particulars                     | As at<br>31 March 2018 | As at<br>31 March 2017 |
|---------------------------------|------------------------|------------------------|
| Borrowings                      | 547,678,000            | 540,168,000            |

The management of the Company has assessed that the carrying amount of the financial assets and financial liabilities measured at amortised cost, are approximately equal to their fair values as at respective balance sheet dates and do not significantly vary from the amounts reported.

*Financial value hierarchy*

Financial assets and financial liabilities measured at fair value in the balance sheet are grouped into three Levels of a fair value hierarchy. The three Levels are defined based in the observability of significant inputs to the measurement, as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3: unobservable inputs for the asset or liability

Quantitative disclosures of fair value measurement hierarchy as at 31 March 2018:

| Financial instruments measured at fair value (recurring fair value measurements) | Date of valuation          | Total         | Level 1       | Level 2 | Level 3     |
|--|----------------------------|---------------|---------------|---------|-------------|

### 33 Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables, security deposits and employee liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments and other receivables, and cash and short-term deposits that derive directly from its operations.

The Company is exposed to **market risk, credit risk and liquidity risk**. The Company's senior management oversees the management of these risks. The Company's senior management is supported by a Risk Management committee that advises on financial risks and the appropriate financial risk governance framework for the Company. The risk committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

#### Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: **interest rate risk, currency risk and other price risk**, such as **equity price risk**. Financial instruments affected by market risk include loans and investments. The Company is not exposed to currency risk and price risk as it has not foreign currency transactions and no market exposures. The Company has fixed term loan facility which is having fixed rate of interest. Therefore, risk of exposure to interest rates is considered insignificant.

#### Equity price risk

##### Applicability

Investment in un-quoted equity shares and preference shares:

The Company's non-listed securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity and preference share instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Director or Managing Director reviews and approves all long term investment decisions.

Investment in quoted shares:

The Company's listed equity investments carried at FVTOCI are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Company manages the equity price risk through diversification and by placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Company's senior management on a regular basis. The Company's Board of Directors reviews and approves all equity investment decisions.

At the reporting date, the exposure to listed equity investments at FTOCI was INR 33,799.37 lakhs (previous year: INR 34,054.25 lakhs). A decrease of 5% on the NSE market index could have an impact of approximately INR 1,689.97 lakhs (previous year INR 1,702.71 lakhs) on the OCI or equity attributable to the Company. The analysis is based on the assumption that the NSE market index and the equity investment moved inline. An increase of 5% in the value of the listed securities would also impact OCI and equity. These changes would not have an effect on profit or loss.

#### Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, stock exchanges and other financial instruments.

##### Applicability

| Applicability             | As at      | As at       |
|---------------------------|------------|-------------|
| Trade receivables         | -          | 58,054,055  |
| Loans                     | -          | 98,319,235  |
| Cash and cash equivalents | 5,197,647  | 85,303,084  |
| Other financial assets    | 15,307,953 | 7,006,404   |
|                           | 20,505,600 | 248,682,778 |

Note:

(i) **Security deposit (loans), balances with banks, cash and cash equivalents and interest accrued on deposits.**

Credit risk from balances with banks is managed by the Company's senior management in accordance with the Company's policy. Investments of surplus funds are made only with a prior approval from Director. The Company is required to provide deposits to exchanges for smooth functioning of operations. These deposits are provided either in cash or through bank fixed deposit only. Considering the strong background of the banks, clearing members and the exchanges with whom the deposits are placed, the Company assesses its credit risk as low or negligible.

(ii) Trade receivables

Customer credit risk is managed through the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed based on the security held in his account. Outstanding customer receivables are regularly monitored.

Summary of trade receivables:

| Particulars                           | 0-90 days  | 91-180 days | More than 180 days |
|---------------------------------------|------------|-------------|--------------------|
| Carrying amounts as on 31 March 2018: |            |             |                    |
| Carrying amounts as on 31 March 2017: | 26,546,247 | 3,605,347   | 27,902,460         |

Concentration of credit risk of trade receivables is very limited due large number customers.

An impairment analysis is performed at each reporting date on an individual basis for all outstanding amounts as per company's policy. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed above.

Liquidity risk

The Company monitors its risk of a shortage of funds using a liquidity planning tool.

The Company's objective is to maintain a balance between continuity of funding and flexibility through shareholder funds or borrowings from the holding company or sister concerns. Considering the stability of the company's holding company, liquidity risk of the company is considered to below.

The table below summarises the maturity profile of the Company's financial liabilities based on **contractual undiscounted payments**.

| Particulars                 | Within 1 year      | 1 to 5 years       | > 5 years | Total              |

Collateral

The Company has pledged part of its deposits in order to fulfil the collateral requirements for its operations. At 31 March 2018 and 31 March 2017, the fair values of the deposits pledged were NIL and INR 6,111,524, respectively. The counterparties have an obligation to return the securities to the Company.

No changes were made in the objectives, policies or processes of managing capital during the year ended 31 March 2018.

(This space has been intentionally left blank)

**34 Fair values**

The management assessed that cash and cash equivalents, trade receivables and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The significant unobservable inputs used in the fair value measurement categorised within Level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2018 and 31 March 2017 are as shown below:

|   |   |                      |                      |
|---|---|----------------------|----------------------|
| <b>Description</b>                              | Investment in NCRPS of GSML                             |                      |                      |
| <b>Valuation technique</b>                      | Discounted cash flow method                             |                      |                      |
| <b>Significant unobservable inputs</b> □        | Average borrowing rate of the instrument issuer company |                      |                      |
| <b>Probable weighted range</b>                  | 31 March 2018: 14% - 17% (16%)                          |                      |                      |
|   | 31 March 2017: 14% - 17% (16%)                          |                      |                      |
| <b>Sensitivity of the input to fair value</b> □ |   | <b>31 March 2018</b> | <b>31 March 2017</b> |
|   | +0.50%  | (479,919)            | (456,578)            |
|   | -0.50%  | 500,908              | 478,841              |

The valuation of financial assets measured at fair value using level 3 inputs is carried out by finance head of the Company who directly report to board of directors of the Company.

They considers average borrowing rates of the issuer of the instrument and tracks for changes in financial position.

**Reconciliation of fair value measurement of unquoted preference shares classified as FVTPL assets:**

A Gratuity

| Particulars             | As at<br>31 March 2017 |
|-------------------------|------------------------|
| Plans                   |                        |
| - Gratuity (not funded) | 3,545,484              |
|                         | <u>3,545,484</u>       |

The following tables summarise the components of net benefit expense recognised in the statement of profit or loss and amounts recognised in the balance sheet for gratuity:

Net employee benefit expense (recognised in employee cost) for the year ended 31 March 2017:

| Particulars          | As at<br>31 March 2017 |
|----------------------|------------------------|
| Current service cost | 659,564                |
| Net interest cost    | 393,874                |
|                      | <u>1,053,438</u>       |

Amount recognised in other comprehensive income for the year ended 31 March 2017:

| Particulars                          | As at 31 March 2017 |
|--------------------------------------|---------------------|
| Actuarial (gain)/loss on obligations | (692,561)           |
|                                      | <u>(692,561)</u>    |

Changes in the present value of the defined benefit obligation are, as follows:

| Particulars                          | As at 31 March 2017 |
|--------------------------------------|---------------------|
| Opening defined obligations          | 4,544,703           |
| Current service cost                 | 659,564             |
| Interest cost                        | 393,874             |
| Benefits paid                        | (1,360,096)         |
| Actuarial (gain)/loss on obligations | (692,561)           |
|                                      | <u>3,545,484</u>    |

Defined benefit obligation

The Company expects to contribute INR 96,002 towards gratuity during the year 2017-18.

The principal assumptions used in determining gratuity obligations for the Company's plans are shown below:

| Particulars              | As at 31 March 2017                                |
|--------------------------|--|
| Discount rate (in %)     | 7.50%  |
| Salary escalation (in %) | 9% for 1 <sup>st</sup> 2 years and 7.5% thereafter |

Gratuity Plan

| Particulars                                | As at 31 March 2017     |                         |                         |                         |
|--|-------------------------|-------------------------|-------------------------|-------------------------|
|  | Discount rate           |                         | Future salary increases |                         |
| Assumptions                                | 50 basis point increase | 50 basis point decrease | 50 basis point increase | 50 basis point decrease |
| Sensitivity level (in basis point)         |                         |                         |                         |                         |
| Impact on defined benefit obligation (INR) | (266,477)               | 144,975                 | 293,410                 | (268,186)               |

Note:

- Sensitivities due to mortality & withdrawals are not material & hence impact of change not calculated.
- Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement & life expectancy are not applicable being a lump sum benefit on retirement.
- The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The following payments are expected contributions to the defined benefit plan in future years:

| Particulars         | As at 31 March 2017 |
|---------------------|---------------------|
| Less than a year    | 57,080              |
| Between 1 - 2 years | 52,444              |
| Between 2 - 5 years | 182,295             |
| Over 5 years        | 3,253,665           |
| <b>Total</b>        | <b>3,545,484</b>    |

The average duration of the defined benefit plan obligation at the end of the reporting period is 31 March 2017: 18.37 years.

#### B Leave encashment

| Particulars | As at 31 March 2017 |
|-------------|---------------------|
| Provision   | 2,786,339           |
|             | <b>2,786,339</b>    |

Amount recognised in the statement of profit and loss is as under:

|  |                |
|--|----------------|
| Current service cost                             | 722,446        |
| Interest cost                                    | 426,204        |
| Actuarial loss/(gain) recognised during the year | (1,024,889)    |
|  | <b>123,761</b> |

## 38 Dues to micro and small enterprises pursuant to section 22 of the Micro, Small and Medium Enterprises Development Act (MSMED), 2006:

| Particulars   | As at<br>31 March 2018 | As at<br>31 March 2017 |
|---|------------------------|------------------------|
| Principal amount remaining unpaid   | -                      | -                      |
| Interest accrued and due thereon remaining unpaid   | -                      | -                      |
| Interest paid by the company in terms of service 16 of MSMED Act 2006, along with the amount of the payment made to the suppliers and service providers beyond the appointed day during the year  | -                      | -                      |
| Interest due and payable for the period of delay in making payment (which has been paid but beyond the appointed day during the year), but without adding the interest specified under MSMED Act, 2006.   | -                      | -                      |
| Interest accrued and remaining unpaid as at the end of the year   | -                      | -                      |
| Further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under section 23 of the MSMED Act, 2006. | -                      | -                      |

39 Pursuant to sub-section 3 of section 129 of Companies Act, 2013 read with rule 6 of Companies (Accounts) Rules, 2014 and Companies (Accounts) Amendment Rules, 2016 (the "rules") published vide notification number G.S.R. 742(E) dated 27 July 2016, the Company has opted not to prepare consolidated financial statements of the Company, its subsidiaries and associates for the financial year ended 31 March 2018. With respect to this, the Company has taken necessary steps to ensure compliance with conditions specified in the rules for availing exemption as prescribed.

40 During the year ended 31 March 2018, the Company reclassified/regrouped certain previous year's numbers. Considering the nature of these reclassifications/regroupings, the Company does not intend to present opening balance sheet of previous year reported. Refer below for the same:

| As at 31 March 2017                   | Amount INR | Earlier reported head    | Revised groupings                 |
|---------------------------------------|------------|--------------------------|-----------------------------------|
| Current tax assets (net)              | 1,545,240  | Current tax assets (net) | Non Current tax assets (net)      |
| Other current liabilities             | 363,113    | Statutory dues           | Balances with revenue authorities |
| Interest income on deposit with banks | -          | Revenue from operations  | Other incomes                     |
| Interest income on deposit with banks | -          | Revenue from operations  | Other incomes                     |

41 The financial statements were approved for external issue by the board of directors on 24 May 2018.

As per our report of even date.
