# Govt steps on gas: 24-hr LPG delivery could soon be reality

New interoperable system to unify LPG delivery across firms-

SHUBHANGI MATHUR  
New Delhi, 29 September

Long waiting queues and frustrating delays in cooking gas deliveries could soon become a thing of the past, with the government on Monday proposing guaranteed 24-hour delivery of liquefied petroleum gas (LPG) refills for consumers.

Under the new framework proposed by the Petroleum and Natural Gas Regulatory Board (PNGRB), if a consumer's primary distributor is unable to deliver an LPG cylinder within 24 hours of booking, the nearest distributor — regardless of the company — would complete the delivery as part of a "cross-public sector undertaking service mechanism".

This will be the first time in the country that consumers can switch between companies for LPG cylinder delivery. "This revolutionary approach transforms three separate distribution silos into one unified national LPG service system," PNGRB said in a statement.

The LPG Interoperable Service Delivery Framework will

## Reducing the waiting period

- The new framework introduces a "cross-PSU service mechanism" to address delayed delivery
- This will be the first time in India that consumers can switch between companies for LPG cylinder delivery
- This will provide a 24-hour delivery guarantee under a strict timeline, replacing the current 48-hour norm
- The regulator has proposed a phased approach to roll out the framework

provide a 24-hour delivery guarantee under a strict timeline, replacing the current 48-hour norm, along with automatic cross-company service activation after 24 hours.

India has 330 million LPG connections. While Indian Oil

Corporation markets domestic LPG cylinders under the Indane brand, Bharat Petroleum and Hindustan Petroleum sell cooking gas as Bharatgas and HPGas, respectively. Together, the three companies supply 88 per cent of

domestic LPG through their network of 25,566 distributors.

A high-level expert committee constituted by the regulator found that 1.7 million LPG-related complaints are registered annually, with delivery delays dominating grievances.

Around half of all complaints recorded by oil-marketing companies (OMCs) relate to refill delivery issues, as consumers often wait days — or even weeks — beyond the stipulated 48-hour delivery norm.

Under the new system, OMCs would assume collective accountability to deliver LPG cylinders on time. The regulator has proposed a phased rollout of the framework, beginning with pilot programmes in select urban and rural areas to test coordination systems and inter-company processes.

Ahead of the rollout, PNGRB on Monday launched a public consultation, inviting stakeholders to provide feedback on operational mechanisms, technology integration, regulatory provisions, and implementation strategies.

# India, Bhutan to establish first rail link with ₹4,033 crore outlay over 3 years

DHRUVAKSH SAHA  
New Delhi, 29 September

India on Monday announced first-ever rail connections with Bhutan which will be built at a cost of ₹4,033 crore over the course of next three years.

In a joint briefing, Union Railway Minister Ashwini Vaishnaw and Foreign Secretary Vikram Misri announced two rail links — Kokrajhar-Gelephu and Banarhat-Samtse. While Kokrajhar is in Assam, Banarhat is a small town in West Bengal.

"This project will connect two very important cities of Bhutan including Gelephu which is being developed as a mindfulness city, and Samtse, which is an industrial city. The two projects will take off from the network of Indian railways at Kokrajhar and Banarhat," Vaishnaw said during a press briefing ahead of the signing of the agreement.

## Giving a fillip

- The project will connect two important cities of Bhutan — Gelephu and Samtse
- The two projects will take off from the network of the Indian Railways at Kokrajhar and Banarhat
- It will involve creation of 89 km of railway network
- The two links will be critical for enhancing cargo and passenger movement

The projects will involve creation of 89 kilometres of railway network and will be set up as priority links boosting connectivity.

Samtse, which borders West Bengal, is being developed as an industrial town in Bhutan

for manufacturing and export. The two links will be critical for enhancing cargo and passenger movement.

India and Bhutan have earlier worked on road and digital connectivity, integrated check-posts and trade routes, apart from new immigration points.

"In order to facilitate the movement of third country nationals, an integrated check post was inaugurated at Darrangain Assam in November 2024. We feel Bhutan will also benefit from the development of the Jogighopha Inland Waterways Transport Terminal," Misri said.

India has been Bhutan's largest provider of developmental assistance and has played a vital role in its modernisation, especially in the areas of infrastructure and the overall economic development of the country.

"For the 13th Five-Year Plan of Bhutan, which runs from 2024 to 2029, the Government of India has committed support of ₹10,000 crore, which covers project-wide assistance, high-impact community development projects, the economic stimulus program and a program grant. And this quantum constitutes a 100 per cent increase over the 12th five-year plan figures," said Misri.

## Bihar gets new Amrit Bharat trains

Rail minister Vaishnaw also flagged off new trains in Bihar, including three Amrit Bharat Express trains, on Monday. The new trains will boost infrastructure connectivity for Bihar and offer passengers enhanced travel services. With the inauguration of the new trains, the state now has 26 Amrit Bharat Express services operational out of the 30 services running across the country.

# Govt's Q&A on GST refund due to inverted duty rates is controversial

SME CHATROOM  
TNC RAJAGOPALAN

We refer to your article 'GST reforms: Festival cheer for consumers but many suppliers face IDR' (BS-September 22, 2025). You have mentioned that 'a controversial clarification from the government that has rattled dealers says that refunds due to IDR will not be available where input and output are the same'. Please let us know the reference of the clarification, why it is controversial and how, as traders, we should proceed?

■ The Q&A no.10 released on September 3, 2025, says that 'refund of accumulated ITC in terms of clause (ii) of first proviso to section 54(3) of the CGST Act, is available where the credit has accumulated on account of rate of tax on inputs being higher than the rate of tax on output supplies. However, the input and output being the same in such cases, though attracting different tax rates at different points in time, do not get covered under the provisions of clause (ii) of the first proviso to sub-section (3) of section 54 of the CGST Act.' However, Section 54 (3) says that (relevant extracts), '..... a registered person may claim refund of any unutilised input tax credit at the end of any tax period provided that no refund of unutilised input tax credit shall be allowed in cases other than-(i) .....(ii) where the credit has accumulated on account of rate of tax on inputs being higher than the rate of tax on output supplies (other than nil rated or fully exempt supplies), except .....'. You will observe that the Section 54(3) makes no

mention about the input and output being the same. So, the controversy is that the said Q&A no.10 does not reflect the correct position. My suggestion is that if you are eligible for refund under the said Section 54(3), you file the refund claim and then litigate if the department resorts to the said Q&A and denies the refund.

Procedure for fulfilment of export obligation through third party under Export Promotion Capital Goods Scheme (EPCG) is prescribed at Para 5.10 (d) of the Handbook of Procedures (HBP). Has any similar procedure been prescribed for exports through third party under advance authorisation scheme?

■ Para 4.26(ii) of FTP says that 'merchant exporter shall be required to mention name and address of supporting manufacturer of the export product on the export document viz. Shipping Bill/ Bill of Export.

Our foreign buyer insists that we use CIP terms for air consignments and not CIF terms. What difference does it make?

■ The Incoterms are so worded as to make FAS, FOB, CFR and CIF suitable for transport by sea or inland waterways only. The default insurance cover under CIP is for Institute Cargo Clauses (All Risks), which is not so under CIF. That could mean a slightly higher premium.
